## PART ONE: INTRODUCTION, CODE PROVISIONS, INTERNATIONAL STANDARD PROVISIONS AND DEFINITIONS

### 1.0 Introduction and Scope

The *International Standard for Education* is a mandatory *International Standard* developed as part of the World Anti-Doping Program.

The overall guiding purpose of the *International Standard for Education* is to support the preservation of the spirit of sport as outlined in the *Code* and to help foster a clean sport environment. It is recognized that the vast majority of *Athletes* wish to compete clean, have no intention to *Use Prohibited Substances or Methods* and have the right to a level playing field.

*Education*, as one Prevention strategy highlighted in the *Code*, seeks to promote behavior in line with the values of clean sport and to help prevent *Athletes* and other *Persons* from doping. A key underpinning principle of the *International Standard for Education* is that an *Athlete's* first experience with anti-doping should be through *Education* rather than *Doping Control*.

The *International Standard for Education* has three (3) main objectives in support of this purpose.

The first objective is to establish mandatory standards which support *Signatories* in the planning, implementation, monitoring and evaluation of effective Education Programs as stipulated in *Code* Article 18. The *Code*, *International Standard for Education* and Guidelines for Education will be aligned in such a manner that the *Code* will outline the framework for *Education*, the *International Standard for Education* will set out the principles and minimum standards that Education Programs shall include, while the Guidelines for Education will aid *Signatories* to develop and improve their Education Program.

The second objective of the *International Standard for Education* is to provide:

- a) Definitions of terminology in the *Education* field.
- b) Clarity on roles and responsibilities for all *Signatories* responsible for planning, implementing, monitoring and evaluating Education Programs.

The third objective of the *International Standard for Education* is to help *Signatories* maximize the use of their resources by:

- a) Requiring *Signatories* to establish an Education Pool that shall at a minimum, include *Athletes* in the *Registered Testing Pool* and *Athletes* returning from a sanction.
- b) Encouraging *Signatories* to cooperate with others and coordinate their *Education* activities to minimize duplication.
- c) Encouraging *Signatories* to consider the benefits of educating a wider population through Values-Based Education programs to instill the spirit of sport and foster a clean sport environment.
- d) Encouraging *Signatories* to engage and leverage the resources and expertise of others, including governments, researchers and educational institutions.

## 2.0 Code Provisions

The following articles in the 2021 *Code* are directly relevant to the *International Standard for Education*; they can be obtained by referring to the *Code* itself:

- Introduction
- *Code* Article 18 *Education*
- *Code* Article 20 Additional Roles and Responsibilities of *Signatories* and WADA
- *Code* Article 21 Additional Roles and Responsibilities of *Athletes* and other *Persons*

## 3.0 Definitions and Interpretation

### 3.1 Defined terms from the 2021 *Code* that are used in the *International Standard for Education*

**ADAMS:** The Anti-Doping Administration and Management System is a Web-based database management tool for data entry, storage, sharing, and reporting, designed to assist stakeholders and WADA in their anti-doping operations in conjunction with data protection legislation.

**Anti-Doping Organization:** WADA or a *Signatory* that is responsible for adopting rules for initiating, implementing or enforcing any part of the *Doping Control* process. This includes, for example, the International Olympic Committee, the International Paralympic Committee, other *Major Event Organizations* that conduct *Testing* at their *Events*, International Federations, and *National Anti-Doping Organizations*.

**Athlete:** Any *Person* who competes in sport at the international level (as defined by each International Federation) or the national level (as defined by each *National Anti-Doping Organization*). An *Anti-Doping Organization* has discretion to apply anti-doping rules to an *Athlete* who is neither an *International-Level Athlete* nor a *National-Level Athlete*, and thus to bring them within the definition of “*Athlete*”. In relation to *Athletes* who are neither *International-Level* nor *National-Level Athletes*, an *Anti-Doping Organization* may elect to: conduct limited *Testing* or no *Testing* at all; analyze *Samples* for less than the full menu of *Prohibited Substances*; require limited or no whereabouts information; or not require advance *TUEs*. However, if an Article 2.1, 2.3 or 2.5 anti-doping rule violation is committed by any *Athlete* over whom an *Anti-Doping Organization* has elected to exercise its authority to test and who competes below the international or national level, then the *Consequences* set forth in the *Code* must be applied. For purposes of Article 2.8 and Article 2.9 and for purposes of anti-doping information and *Education*, any *Person* who participates in sport under the authority of any *Signatory*, government, or other sports organization accepting the *Code* is an *Athlete*.

[*Comment to Athlete: Individuals who participate in sport may fall in one of five categories: 1) International-Level Athlete, 2) National-Level Athlete, 3) individuals who are not International or National-Level Athletes but over whom the International Federation or National Anti-Doping Organization has chosen to exercise authority, 4) Recreational Athlete, and 5) individuals over whom no International Federation or National Anti-Doping Organization has, or has chosen to,*

*exercise authority. All International and National-Level Athletes are subject to the anti-doping rules of the Code, with the precise definitions of international and national level sport to be set forth in the anti-doping rules of the International Federations and National Anti-Doping Organizations.]*

**Athlete Biological Passport:** The program and methods of gathering and collating data as described in the *International Standard for Testing and Investigations* and *International Standard for Laboratories*.

**Athlete Support Personnel:** Any coach, trainer, manager, agent, team staff, official, medical, paramedical personnel, parent or any other *Person* working with, treating or assisting an *Athlete* participating in or preparing for sports *Competition*.

**Code:** The World Anti-Doping Code.

**Competition:** A single race, match, game or singular sport contest. For example, a basketball game or the finals of the Olympic 100-meter race in athletics. For stage races and other sport contests where prizes are awarded on a daily or other interim basis the distinction between a *Competition* and an *Event* will be as provided in the rules of the applicable International Federation.

**Doping Control:** All steps and processes from test distribution planning through to ultimate disposition of any appeal and the enforcement of *Consequences*, including all steps and processes in between, including but not limited to, *Testing*, investigations, whereabouts, *TUEs*, *Sample* collection and handling, laboratory analysis, *Results Management*, and investigations or proceedings relating to violations of Article 10.14 (Status During *Ineligibility* or *Provisional Suspension*).

**Education:** The process of learning to instill values and develop behaviors that foster and protect the spirit of sport, and to prevent intentional and unintentional doping.

**Event:** A series of individual *Competitions* conducted together under one ruling body (e.g., the Olympic Games, World Championships of an International Federation, or Pan American Games).

**Event Venues:** Those venues so designated by the ruling body for the *Event*.

**International Event:** An *Event* or *Competition* where the International Olympic Committee, the International Paralympic Committee, an International Federation, a *Major Event Organization*, or another international sport organization is the ruling body for the *Event* or appoints the technical officials for the *Event*.

**International-Level Athlete:** *Athletes* who compete in sport at the international level, as defined by each International Federation, consistent with the *International Standard for Testing and Investigations*.

*[Comment: Consistent with the International Standard for Testing and Investigations, the International Federation is free to determine the criteria it will use to classify Athletes as International-Level Athletes, e.g., by ranking, by participation in particular International Events,*

*by type of license, etc. However, it must publish those criteria in clear and concise form, so that Athletes are able to ascertain quickly and easily when they will become classified as International-Level Athletes. For example, if the criteria include participation in certain International Events, then the International Federation must publish a list of those International Events.]*

**International Standard:** A standard adopted by WADA in support of the Code. Compliance with an *International Standard* (as opposed to another alternative standard, practice or procedure) shall be sufficient to conclude that the procedures addressed by the *International Standard* were performed properly. *International Standards* shall include any *Technical Documents* issued pursuant to the *International Standard*.

**Major Event Organizations:** The continental associations of *National Olympic Committees* and other international multisport organizations that function as the ruling body for any continental, regional or other *International Event*.

**Minor:** A natural *Person* who has not reached the age of eighteen years.

**National Anti-Doping Organization:** The entity(ies) designated by each country as possessing the primary authority and responsibility to adopt and implement anti-doping rules, direct the collection of *Samples*, manage test results and conduct *Results Management* at the national level. If this designation has not been made by the competent public authority(ies), the entity shall be the country's *National Olympic Committee* or its designee.

**National Event:** A sport *Event* or *Competition* involving *International-* or *National-Level Athletes* that is not an *International Event*.

**National-Level Athlete:** *Athletes* who compete in sport at the national level, as defined by each *National Anti-Doping Organization*, consistent with the *International Standard for Testing and Investigations*.

**National Olympic Committee:** The organization recognized by the International Olympic Committee. The term *National Olympic Committee* shall also include the National Sport Confederation in those countries where the National Sport Confederation assumes typical *National Olympic Committee* responsibilities in the anti-doping area.

**Person:** A natural *Person* or an organization or other entity.

**Regional Anti-Doping Organization:** A regional entity designated by member countries to coordinate and manage delegated areas of their national anti-doping programs, which may include the adoption and implementation of anti-doping rules, the planning and collection of *Samples*, the management of results, the review of *TUEs*, the conduct of hearings, and the conduct of *Education* programs at a regional level.

**Registered Testing Pool:** The pool of highest-priority *Athletes* established separately at the international level by International Federations and at the national level by *National Anti-Doping Organizations*, who are subject to focused *In-Competition* and *Out-of-Competition Testing* as part of that International Federation's or *National Anti-Doping Organization's* test distribution

plan and therefore are required to provide whereabouts information as provided in Article 5.5 and the *International Standard for Testing and Investigations*.

**Signatories:** Those entities accepting the *Code* and agreeing to implement the *Code*, as provided in Article 23.

**Strict Liability:** The rule which provides that under Article 2.1 and Article 2.2, it is not necessary that intent, *Fault*, negligence, or knowing *Use* on the *Athlete's* part be demonstrated by the *Anti-Doping Organization* in order to establish an anti-doping rule violation.

**Testing:** The parts of the *Doping Control* process involving test distribution planning, *Sample* collection, *Sample* handling, and *Sample* transport to the laboratory.

**Therapeutic Use Exemption (TUE):** A *Therapeutic Use Exemption* allows an *Athlete* with a medical condition to use a *Prohibited Substance* or *Prohibited Method*, but only if the conditions set out in Article 4.4 and the *International Standard for Therapeutic Use Exemptions* are met.

## PART TWO: STANDARDS FOR *EDUCATION*

### Overview

Code Article 18.1 requires *Signatories* to plan, implement, monitor and evaluate *Education Programs*. Articles 4, 5 and 6 describe the requirements of *Signatories* related to these mandatory activities.

*Signatories* should take into consideration cultural and sport contexts and the needs of the learners when developing *Education Programs*.

*Signatories* shall develop and deliver an *Education Program* that incorporates the following four components:

- **Values-Based Education**: Delivering activities that emphasize the development of an individual's personal values and principles. It builds the learner's capacity to make decisions to behave ethically.
- **Awareness Raising**: Highlighting topics and issues related to clean sport.
- **Information Provision**: Making available accurate, up to date content related to clean sport.
- **Anti-Doping Education**: Delivering training on anti-doping topics to build competencies in clean sport behaviors and make informed decisions.

All components should be aligned in the *Education Program*. All activities should be complementary, underpinned by values, and foster and protect the spirit of sport.

*Signatories* should reflect on the role of *Education* in their organization and be clear on their vision and the ultimate outcome they would like to see from their *Education Program*. This vision and outcome should inform the objectives that are set out in the *Education Plan*.

At a minimum, *Signatories* shall include *Athletes* who are included in their *Registered Testing Pool* and *Athletes* returning from a sanction. *Signatories* are strongly encouraged to ensure their Education Pool includes a broader group of *Athletes* or provide a rationale for non-inclusion as described in Article 4.3.4. This is to support the principle that an *Athlete's* first experience with anti-doping should be through *Education* rather than *Doping Control*.

- 5.3** *Education* on the topics listed in Article 5.2 should be provided for the *Registered Testing Pool* in full.
- 5.4** *Signatories* shall establish a framework that identifies the learning objectives for each target group in the *Education Pool*. These learning objectives state what the learner should be 'aware of', 'understand' and 'be capable of doing' for each topic. Competencies and skills are what the learner should demonstrate at each stage of their development.
- 5.5** *Signatories* shall tailor *Education* activities to learners with impairments or specific needs within the *Education Pool*.

*[Comment to Article 5: To assist Signatories, WADA offers a full suite of Education tools to help reach various target groups.]*

## **6.0 Evaluating *Education* Programs**

**6.1** *Signatories* shall evaluate their Education Program annually. The evaluation should inform the following year's Education Plan. The evaluation report shall be provided to *WADA* upon request with an overview/summary in English or French.

**6.3** Where possible, *Signatories* should seek partnerships in the academic field or with other research institutions to provide support for evaluation and research purposes. Social science research can also be used to inform evaluation procedures.

*[Comment to Article 6.3: WADA offers social science research evidence to inform both evaluation of programs and design of Education activities.]*

## PART THREE: ROLES & RESPONSIBILITIES, COOPERATION AND ACCOUNTABILITY OF SIGNATORIES

### 7.0 Roles & Responsibilities of *Signatories*

#### 7.1 Overview
